

PLEXIGLAS HEATSTOP®

PLEXIGLAS HEATSTOP® sheets have a perfectly smooth surface and are available in a transparent shade of grey or a translucent opalescent grade.

PLEXIGLAS HEATSTOP® corrugated sheets are supplied in profile 76/18 and a width of 1,045 mm, installation lengths of up to 4,000 mm and delivery lengths (for cutting to size) of up to 7,000 mm.

PLEXIGLAS HEATSTOP quadruple-skin sheets are available in 32mm thickness, in the standard width of 1,230 mm and lengths up to 7,000 mm. These sheets can be installed in lengths of up to seven meters without crosswise supports.

Further components of the PLEXIStyle® system are:
 PLEXIGLAS ALLTOP® multi-skin sheets
 PLEXIGLAS RESIST® corrugated sheets
 PLEXIGLAS HEATSTOP® double-skin sheets SDP 8 (only in Opal translucent) in 8mm thickness and 1,200mm width, as well as SDP 16 in 16 mm thickness and widths of 980 and 1,200 mm.
 PLEXIGLAS® Textured Sheet
 PROStyle® assembly systems for multi-skin, corrugated and textured sheets

PLEXIStyle® is the intelligent solution for many applications: conservatories, patios, domestic greenhouses, carports, wind screens and balcony parapets.

All sheets in the PLEXIGLAS HEATSTOP® family come with a 10-year guarantee on UV resistance, heat protection and hail resistance.

New!

PLEXIGLAS HEATSTOP® Transparent
 For a Pleasant Climate

*It's baking hot – another record summer.
 When every movement is an effort, what
 a boon it is to have a place in the shade.
 Your transparent roof gives you a clear
 view of nature, but keeps out scorching sun
 rays.*

For conservatories, carports and patio roofs

PLEXIStyle®

The Cool Sheet with a View

This corrugated sheet in a noble shade of grey reduces heat buildup under the roof by up to 50% as compared with clear glazing material, but is nevertheless highly transparent. It is easy to install and withstands even rough treatment. PLEXIGLAS HEATSTOP® Transparent corrugated sheet is the ideal glazing material for carport and patio roofs that let in plenty of light but ensure pleasant temperatures below.

Multi-Skin Sheet with Threefold Functionality

The new, highly transparent PLEXIGLAS HEATSTOP® Transparent multi-skin sheet offers heat protection and excellent heat insulation. It reduces the heat buildup under the sheet in summer by up to 60% as compared with standard glazing, even though it is perfectly transparent. In the cold season, it keeps rooms pleasantly cozy and helps to cut energy costs.

Making Light Work of Installation

Making Light Work of Installation PLEXIGLAS HEATSTOP® corrugated sheets are real featherweights, at less than 4 kg per square meter. They are suitable for all types of construction and can be installed on existing structures, where necessary. That saves time, money and nervous energy.

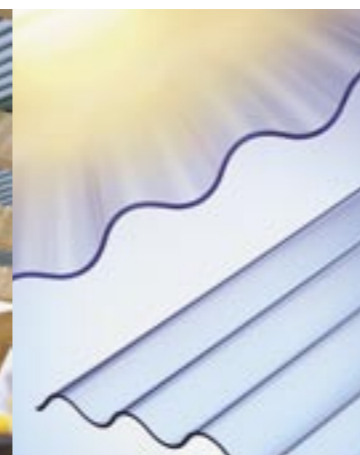

Although the PLEXIGLAS HEATSTOP® quadruple-skin sheet is 32mm thick, it weighs in at less than 6 kg per square meter. That saves effort during installation and enables the use of unobtrusive but stable supporting structures.

PLEXIStyle® – clearly the best.

Keeping Your Cool

No need to fiddle with sun blinds or look for a shady corner - just stay comfortably seated at your table. Your stylish patio roof made of specially coated PLEXIGLAS HEATSTOP® Transparent can take any weather, and protects you from the heat of the sun. The air beneath the roof stays much cooler than below clear-transparent glazing, whether you have chosen multi-skin or corrugated sheets. We promise.

We give you a 10-year guarantee on weather resistance, hail resistance and heat protection. PLEXIGLAS® is subject to constant quality control, and the brand name is stamped on every single sheet to give you maximum security.
