[i.e. A document that declares a manufacturer/supplier/producers intentions and procedures to minimize the environmental impact of their products throughout the whole of their life cycle.] Please provide details of any take back and or reuse program which you have in place and how the product is reused, recycled or reconditioned.	Yes (Policy of company)	
Is your product designed for disassembly? [ie. an amount of the product is mechanically fixed and can be separated into reusable or recyclable parts] Total percentage of product [by mass]	Yes n/a % (see comment 2)	

*Please attach additional sustainable product and manufacturing information if applicable

Comments:

1. PLEXIGLAS® is to 100% recyclable, it is a long-life plastic, has an economic life time from large more than 10 years, after usage disposable as domestic waste, without hazardous substances, no absolute toxicity while burning.
2. PLEXIGLAS® sheets are semi finished products, so they are a part of a system. In usual these systems are removable. If Roehm offers a complete construction systems, such us roofing systems (multi wall sheets and profiles), the products are designed for disassembly, therefore YES.
